

2010 Meeting of the International Society of Pituitary Surgeons  
Preliminary Program  
October 14- October 16, 2010  
Sonoma, California

Thursday, October 14

3:00 - 5:00 PM Registration and Speaker's Corner – Download talks onto presentation computer

7:30 - 10:30 PM Reception and Dinner at MacArthur Place Inn

Friday, October 15

7:00 - 8:00 AM Breakfast in the MacArthur Place Inn Eatery

8:00 – 8:05 AM ISPS Background and Overview – Laws

8:05 - 08:10 AM Welcoming Remarks – Oyesiku

**8:10 - 10:25 AM** **Mini-Symposium: Endoscopic Pituitary Surgery**

8:10 - 8:25 AM Results and Outcomes of Endoscopic Pituitary Surgery: An Overview of the Global Experience - Gentili

8:25 - 8:40 AM Microscopy vs. Endoscopy: An Assessment - Mayberg

8:40 – 8:55 AM Microsurgery vs. Endoscopy: The Status and Trends from Asia – Deopujari

8:55 - 9:10 AM Revision Endoscopic TSS: Difference in outcome after open Microsurgical Resection - Shrivastava

9:10 - 9:25 AM

9:25 - 9:40 AM Endocrine Outcomes Following Endoscopic Surgery for Acromegaly – Mamelak

9:40 - 9:55 AM 15 Minute Discussion Break

9:55 - 10:10 AM Endoscopy vs. Microscopy in Pituitary Adenomas: Status and Trends – Jane

10:10 - 10:25 AM	3D Endoscopic Surgery: Rationale, Techniques and Results – Oyesiku
10:25 - 10:45 AM	COFFEE BREAK
10:45 - 01:00 PM	Mini-Symposium: Cushing's Disease
10:45 - 11:00 AM	Early Post-OP Cortisol as Guide to Management – White
11:00 - 11:15 AM	Early Re-Operation for Cushing's Disease – Mayberg
11:15 - 11:30 AM	Evaluation of Cushing's Syndrome – Katznelson
11:30 - 11:45 AM	Cushing's Disease - is Multi-Centricity the Cause of Failure? – Banerji
11:45 - 12:00PM	Hyperplasia in Cushing's Disease - Mayberg
12:00 - 12:15 PM	Cushing's Disease: Large Adenomas Management Outcomes - Shrivastava
12:15 - 12:30 PM	Endoscopic Surgery for Cushing's - Can It Improve Outcomes - Dehdashti
12:30-12:45 PM	IPS Catherization for Cushing's Disease – Azevedo
12:45-1:00 PM	Man's Best Friend – TS Treatment of Cushing's Disease in Dogs – Techniques, Results and Rationale - Mamelak
1:00 – 2:00 PM	LUNCH
2:00 – 2:55 PM	Mini Symposium: Role of Radiotherapy in Pituitary Adenomas
2:00 - 2:15 PM	Hypo-Fractionation for SRS – Role of Cyberknife and Linac – Mayberg

2:15 – 2:30 PM	Outcomes and Complications Associated with Single Fraction Radiosurgery for Pituitary Adenomas – Sheehan
2:30 – 2:45 PM	Decreased use of Radiotherapy/Radiosurgery in the Multi-Modality Management of Acromegaly – Law
2:45 - 2:55 PM	10 Minute Discussion Break
2:55-3:00	Housekeeping / Adjourn
3:00-4:00	Change for Evening Event
4:00	Board bus (20 min drive time)
4:30-9:30 PM	Benziger Family Winery – Tour, Reception and Dinner

Saturday, October 16

8:00-8:50 AM	Mini-Symposium: Role of Medical Therapy in Pituitary Adenomas
8:00 - 8:15 AM	Experience with TMZ for Aggressive Tumors – Laws
8:15 - 8:30 AM	Role of Temodar in the Management of Aggressive Pituitary Adenomas – Jane
8:30 - 8:45 AM	Treatment of Pituitary Neoplasm with Temozolomide – Little
8:45 - 8:50 AM	5 Minute Discussion Break
8:50 - 10:30 AM	Broad Topic Talks
8:50 - 9:05 AM	Update on Silent Corticotroph Adenomas – Ioachimescu
9:05 - 9:20 AM	Pituitary Adenoma Surgery as a Paradigm of How Innovations are Introduced in Surgery: Does Endoscopic Pituitary Surgery Improve Short-term Outcome Compared to Microscopic Pituitary Surgery? A Systematic Review of the Literature - Ammirati

9:20 - 9:35 AM	Pituitary Tumours and Skull Base Pathology – Vargas
9:35 - 9:50 AM	Pituitary Stem Cells – Quinones-Hinojosa
9:50 - 10:00 AM	10 Minute Discussion Break
10:00 - 10:10 AM	Survey Results: Antibiotic Prophylaxis in Pituitary Surgery – Little
10:10 - 10:20 AM	Neuro-Navigation in Endoscopic Surgery: Results of ISPS Survey - Capabianca
10:20 - 10:30 AM	Results of an ISPS survey of clinical practice – Mamelak
10:30-10:45 AM	COFFEE BREAK
10:45- 12:00 PM	<a href="#">Mini-Symposium/Panel: Open and Expanded Endoscopic Approaches for Sellar/Parasellar and Suprasellar Lesions</a>
10:45 - 11:00 AM	Role of Open vs. Endoscopic Approaches for Craniopharyngiomas – Gentili
11:00 - 11:15 AM	Transcranial Approaches for Pituitary Adenomas - Rojas
11:15 - 11:30 AM	Complex Repair of Sellar Defects after TSS - Shrivastava
11:30 - 11:45 AM	Management of Giant Invasive Pituitary Adenomas- Sbeih
11:45 - 12:00 PM	Pituitary Senescence – Melmed
12:00 – 1:00 PM	<a href="#">Case Presentations</a>
1:00 - 2:00 PM	LUNCH
2:30 PM	Board bus to downtown San Francisco CNS hotels
